Summary

We believe to access more utility smart chain contracts there should be a point-of-sale hardware for decentralized finance applications. (\$Gummi) token was created to emphasis a need for more hardware dedicated to decentralized applications and tasks. (\$Gummi) token rewards token holders for supporting and using MK- Horizon Core Hardware. (\$Gummi) token holders will be rewarded through manual additions to the liquidity pool from promotional MK-Horizon Core Hardware sales, automated liquidity pool additions and manually burned tokens.

What sets us apart is we aim to construct a physical network for our token to thrive. This gives our token a utility in the real world.

The MK-Core Machine V0.01 is the platform for \$Gummi token holders to interface with various blockchain technologies and receive \$Gummi tokens rewards.

How it works

Automated Liquidity

- 5% fee auto add to the liquidity pool when selling
- 5% fee auto distribute to all holders.
- Buyers and sellers are automatically paired

Manual burning

- We have destroyed %40 of totally the total supply prelaunch
- We will burn up as necessary

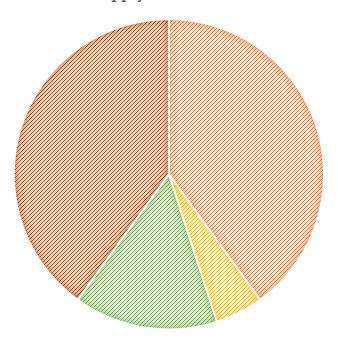

Manual Liquidity Addition

- Liquidity pool additions from promotional hardware sales will be donated by the development team to liquidity pool on a rolling basis.
- We eventually want to offer swapping and purchasing of \$Gummi for cash which will increase the liquidity for holders

Tokenomics
